YMCA of Northeastern Ontario

December 22, 2021

Dear YMCA NEO Child Care Families,

Thank you for your ongoing dedication and commitment to keeping our child care centres safe for children, families and educators.

As you are aware all parents with children attending a YMCA NEO child care centre and/or before/after school program will be required to continue to complete the appropriate online screening tool.

In order to provide further clarification around isolation requirements, the screening tools have been updated to include the following question regarding household members who test positive on a rapid antigen test.

"Has someone in your household tested positive, or inconclusive, on a Rapid Antigen Test and are currently waiting on PCR test results?"

When an individual tests positive on a rapid antigen test, any household members who are not fully vaccinated are also required to stay home while the individual seeks a PCR test.

On behalf of the YMCA of Northeastern Ontario, I would like to thank you for your ongoing support and understanding. Should you have any questions or concerns, please do not hesitate to contact me or speak with your Child Care Supervisor.

Sincerely,

Barb Landriault
